Passionate Full-Stack Developer with expertise in front-end technologies(HTML,CSS,Javascript) and creating dynamic, resposive UIs using React, Tailwind CSS, MUI, Bootstrap and Redux,FireBase. Visit my GitHub account to know about me.

EXPERIENCE

INTERN SOFTWARE ENGINEER

Luminar Technolab Kochi

2023 Aug- Present

- During my internship, I succesfully developed full-stack applications utilizing cutting edge technologies

PROJECTS

MEDIA APP

ReactJS | Bootstrap | MUI | Json-Server |

Live Demo : https://media-player-lijin.netlify.app/

GitHub Repo : https://github.com/lijinlawrence/MediaPalyer

- Developed a media application using HTML, CSS, and JavaScript for the frontend, with React.js for enhanced user interaction
- Integrated a JSON-server to manage video data, ensuring efficient storage and retrieval for user-uploaded content.
- Implemented key features including video upload, online viewing, and deletion functionality for a seamless user experience.
